Thuthuzwa Mshumpela

Software Developer | HTML | CSS | JavaScript | Angular | Flutter |
City of Johannesburg, Gauteng, South Africa

Summary

Passionate frontend developer with hands-on experience in building responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and Angular. Currently expanding skills in AI as an intern, exploring machine learning and its integration with web technologies. Enthusiastic about leveraging coding and problem-solving abilities to create innovative solutions. Eager to learn, adapt, and contribute to cutting-edge projects at the intersection of frontend development and AI. Strong team player with a keen eye for detail and a drive for continuous growth in tech.

Experience

CAPACITI

Artificial Intelligence Intern
April 2025 - Present (3 months)
South Africa

BBD

Software Engineer Intern
February 2024 - July 2024 (6 months)
City of Johannesburg, Gauteng, South Africa

At BBD Software I was working with variety of modern technologies including Java, Microsoft SQL Server, JavaScript, HTML, CSS, and Angular. With a strong background in full-stack development, I have successfully delivered numerous projects that demonstrate my ability to design, implement, and maintain high-quality software solutions.
